- TDD, unit tests (jest, enzyme)
- Typescript

ABOUT ME

Hi, i am not experienced front-end developer.
I am interested in building usable,well-constructed websites and react-applications. Self-motivated, have ability to learn quickly, and therefore effective at completing tasks with minimal supervision.
Currently, i am looking for job opportunities of React development in Lviv.

At the moment, the most important thing for me is to be surrounded by people from whom I can learn something and become better in my chosen profession. Would prefer development on React.

More about my works on gitHub.
